#### *CVMC At Barrett-Jackson*

After going to the Daytona 500 for 6 years, Ray and his high school friend and fellow motor head from PA decided they wanted to do something they never did before. And so began our planning for our trip to Scottsdale, Arizona for 2008 Barrett-Jackson.

Ray and his friend, John, share quite a history with their various Fords through the years so it was only fitting that we would make a short stop in Las Vegas where we also visited the Carroll Shelby headquarters. Unfortunately, we arrived on Monday after the big celebration for Shelby's 85th birthday. On Tuesday, we flew from Las Vegas to Scottsdale and made our first visit to West World under the huge tent for the Barrett-Jackson events. The lower priced cars went for auction on Tuesday and Ray started his tent by tent tour of hundreds of cars. In addition to the cars, there are vendors selling jewelry, furniture, pin ball machines, carousel horses along with the many car related items. Wednesday we drove to Sedona and saw the beautiful red rock formations. But Ray and his friend went back to West World first thing Thursday while John's wife and I spent a wonderful afternoon at the Phoenix zoo.

On Friday, our friends flew home to Pennsylvania so I went with Ray back to West World. Ray's friend was offered a week pass on Thursday

at Thursday's \$30 ticket price by someone who could not attend the rest of the week so Ray was able to use that instead of paying the increased price of \$45.00 on Friday and \$55.00 on Saturday. We caught up with fellow CVMC members Richard & Brenda Jones and Linda & George Cosier in the auction area. The higher priced cars were going over the auction block. It was exciting when Tony Stewart's race car brought over \$300,000 for the Darrell Gwynn foundation as one of the young wheel chair recipients watched on stage as Goldberg, Tony and some of the other celebrities encouraged the bidders.

Ray went back to the show one last time on Saturday. As the week went on, the crowds increased with a mixture of fellow car lovers, celebrities and the very wealthy. I visited Taliesin, the house of architect Frank Lloyd Wright.

Ray was a little disappointed with the prices that some of the Mustangs brought compared to last year but admits that the 2 Mach I's that went were not top notch after his thorough inspection. We hope that every club member gets the opportunity to some day attend Barrett-Jackson. We have heard there is talk they may move the event from Scottsdale but hope that is not true. There is so much to see and do in Scottsdale and the surrounding area while visiting the show. We had a wonderful experience.

## ***CVMC Website "IMPORTANT"***

Hey fellow CVMC Members! I want to talk to you about the CVMC website (click here----->[CVMC Website](#)). By this time next year CVMC will have a totally new look to our website.

We will be improving the features we already have and coming up with new features for your enjoyment. We will be talking about those features more in the future.

For example we have a totally New Look to the CVMC Forums. You can check them out by...

Clicking Here-----> [CVMC Forums](#)  
...In this part of the website you find information about Club Events, Car Shows, Parades, Cruise Ins, Tech Information about 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> Generation Mustangs, What's New in the Automotive World, News about New Ford Autos and Trucks, Ford Racing and just plain ole information about whatever is on your mind.

This is a great way to share information among CVMC members. You can also post about your projects and also upload pictures about your Mustangs, Events, etc.

We know that quite a few of you already come to the website on a regular basis but there are way too many of you who have internet access but do not come to the website. We ask that you get into a habit of coming to the website on a regular basis.

We know that some of you are not familiar with posting on the internet and may feel unsure of yourself. Let me assure you it is a very easy thing to do and Rusty and I are more than willing to help you out anytime we can. If you become unsure of what you're doing just give one of us a call and we will be more than happy to help you out. If we cannot help you at that moment we will be more than happy to set up a time where we can walk you through the process of registering and then posting in the Forums. A little side note about registering. When you register either Rusty or I have to approve you via e-

mail so it may take a few hours then you can post to your little hearts delight.

## **News From The Blue Oval**

### **2005-2008 Mustangs To Be Recalled**

Ford Motor Co. said Wednesday it is recalling 470,000 Ford Mustangs from the 2005-2008 model years to recalibrate how forcefully the air bag deploys on the front passenger side of the car.

Internal testing showed the air bag could injure a small, unbelted passenger, said Ford spokesman Wesley Sherwood. The recall was posted on the Web site of the National Highway Traffic Safety Administration. Sherwood said the fix would address "a very rare scenario," and there were no reports of injuries or accidents tied to the recall.

Nearly 435,000 of the recalled vehicles are in the United States, with most of the remaining vehicles in Mexico and Canada.

The Dearborn-based automaker will notify customers by mail in early March. Owners can take their vehicle to a dealer to have the air bag recalibrated to deploy at a lower force. For additional details, owners can call Ford at 866-436-7332 or visit the

company's owner services Web site at <http://www.ford.com/owner-services>.

### **He's done it!**

Jari-Matti Latvala held his nerve through Sunday's final five stages to win the 2008 Swedish Rally and collect the first WRC victory of his career. After a sensational drive in difficult conditions, Latvala finished the event 58sec ahead of his Ford team-mate Mikko Hirvonen who was second.

Latvala, aged just 22, becomes the youngest driver ever to win a WRC rally, a record previously held by the late Henri Toivonen, who was 24 years old when he won the 1980 RAC Rally. At the finish an emotional Latvala danced on the roof of his Focus WRC: "It's a super feeling! It's almost unbelievable!" said Latvala. "Henri [Toivonen] was one of my idols and secretly I've always wanted to beat his record as the youngest winner.

"The rally started so well from the first stage. We've made no mistakes, the car has been absolutely perfect and I've been able to control the speed - I'm really happy about that. I feel very comfortable now, this result has given me a lot of self confidence and I'm really looking forward to Mexico," he added.

## **Grand Am Koni Challenge Daytona**

The No. 55 Hyper Sport Mustang FR500C finished second in the Grand-Am KONI Challenge Series Friday at Daytona International Speedway. After starting 24th, Joe Foster, Jeff Courtney and Scott Maxwell worked their way up through the field in the series' season opener and were able to finish second for the second year in a row.

JOE FOSTER - 55 - Hyper Sport Mustang FR500C- (Finished 2nd).

HYPER SPORT HAS BEEN AROUND NOW FOR A FEW YEARS, AND ARE A TEAM THAT IS CONSISTENTLY AT THE TOP AND CHALLENGING FOR WINS. "Well the team has come together in so many ways and the second and middle stint obviously began with a lot of yellow, which was boring for everybody and then we tried to do a restart and then there was another yellow. The car is good in traffic; the Ford Mustang is a good car in traffic. It's not secret that it has good torque and this is the kind of race track that would suit that. I'd be lying if I was looking forward to Lime Rock in a Mustang. But definitely our strange beginning to the stint, it ended up lasting an hour and 20 something and we had a long green run for the last two-thirds of it. We kind of got strung out there and actually had a chance to race and get up front and back into the top three. That put us in a good position to go ahead and put Scott in for his sprint to the finish.

"DID YOU GUYS GET FOUR FRESH TIRES ON YOUR LAST PIT STOP?" Yes, we did."

Scott Maxwell - 55 - Hyper Sport Mustang FR500C- (Finished 2nd)

YOU SUDDENLY POPPED UP AT THE END OF THE RACE. TALK ABOUT YOUR DRIVE THERE AT THE END."

Actually, the car was working very well. And I'm really grateful to Hyper Sport because two days ago, 48 hours ago I wasn't even driving. We decided to go with three drivers for this race just to bank some points and for the rest of the year so we had a bit of a different strategy. Jeff and Joe do not only a great job not only keeping it at the front, but the car was like new when I got in it. It was like a 35-minute sprint for me at the end. I made a lot of mistakes actually; just trying too hard and there's a couple of guys that are annoyed with me out there. Anyways, the car was good, the Mustang was strong and we just didn't have enough time or the legs to catch the Porsche. It was a good start for us for two years in a row to be second here so maybe next year we'll come back and try to win it. It was a good start for the Hyper Sport Mustang.

"IF THERE WASN'T THE LAST CAUTION AND YOU WOULD HAVE BEEN ABLE TO RACE THOSE LAST THREE LAPS OR IF IT HAD HAPPENED JUST A FEW MINUTES EARLIER AND YOU HAD BEEN ON CRAIG'S TALE, WOULD YOU HAVE BEEN ABLE TO CATCH HIM?" You know I honestly wasn't close enough to give you an honest answer. Our car was strong, but Craig was far enough down the road that I couldn't tell really if he was pushing hard or not. I would have liked the chance but he was too far down the road.

"YOU WERE INVOLVED IN AN INCIDENT LATE. WHAT HAPPENED THERE?" I think it was the second flying lap and they warned me that the brakes were a bit glazed, and I went down into one and I was full blown on the brakes and couldn't stop and I thought I was actually going off for a nice little crash and I think I clipped one of the Volkswagens on my way in,

I think it was a Volkswagen, -- one of the little cars I hit on the way in. Anyways I stopped about three feet shy of the wall and kept going."

Jeff Courtney - 55 - Hyper Sport Mustang FR500C- (Finished 2nd) YOU QUALIFIED AND STARTED 24TH, BUT WAS YOUR JOB TO KEEP IT OUT OF TROUBLE IN A THREE HOUR RACE. TALK ABOUT YOUR STINT AND BEING CLOSE TO SOME OF THE TROUBLE IN THAT PART OF THE FIELD." Yeah, we were very disappointed in our qualifying, but I think there were a lot of teams that were just hit the rain wrong and whatever. But thanks to Joe and Patrick for giving me the opportunity for one, but it was a lot of close calls early in the race, but for the most part staying out of trouble, I thought we did a decent job of bringing it in where we needed to get these guys in. It was good to hang with a fast crew like that."

The closest show to us is outside of Columbus, Ohio. Dublin is near the center of the US, which means there will probably be a very large attendance. Those club members thinking about going to this show, may I suggest making your hotel/motel reservation now? The Marriott Northwest is the host hotel & the show site. If you don't go, you can always cancel those reservations. There are several CVMC members going to Ohio. The 2008 National Show Schedule is as follows:

March 28-30, 2008 Pensacola, Florida  
June 20-22, 2008 Columbus, Ohio  
August 1-3, 2008 Oakville, Ontario, Canada  
August 29-31, 2008 Park City, Utah

(Grand National)  
October 24-26, 2008 Phoenix, Arizona

If you would like to join MCA see me during the break. Mustang Times magazine is a first-rate publication for the auto enthusiasts and published by MCA. It is full of valuable technical and how to do information for all year Mustangs. There are also stories and pictures of members unique Mustangs, such as a stretch limo or the station wagon seen at the Grand National in Augusta, GA. All the national show dates, locations & activities are listed along with many parts vendor. There are even several pages devoted to newest parts and accessories for all Mustangs and this glossy magazine is only available to MCA members.

#### **March 2008** **Car Hobbyist News From** **the Council**

**By Fred Fann**

HB 52 has now passed both houses of the General Assembly. This was the only car hobbyist related bill

in this year's session. The bill's purpose was to change the antique vehicle registration process so that hobbyists would not have to get the paperwork notarized. This will save all of us a step in the registration process. In the house the bill was amended by deleting the "meet the safety equipment requirements for the model year in which they were manufactured". The forms will have to be changed to eliminate the notarized signature and you will only certify that your antique is safe to operate. The year of manufacture was confusing to some people who were not sure of what the requirements were in the past and if their modifications to vehicles were OK for the model year. Hopefully this bill will stop DMV from requiring notarized signatures on other DMV forms. DMV's in other states have required many forms to be notarized.

Be sure to check out all the auto-related bills at the VAACC website:

<http://www.vaacc.org/legis1.html>

I'm sure you have heard about Governor Kaine's Commission on Climate Change established by executive order. This was one of the recommendations of the Virginia Energy Plan – you can read all 180 pages at this link:

[http://www.governor.virginia.gov/Templates/Content/2007\\_VA\\_Energy\\_Plan-Full\\_Document.pdf](http://www.governor.virginia.gov/Templates/Content/2007_VA_Energy_Plan-Full_Document.pdf)

The commission is charged with reducing greenhouse gas emissions by 30 percent by 2025. Doing this will certainly change the way many of us do things. The commission will also work on:

- Inventory the amount of and contributors to Virginia's greenhouse gas emissions, including emissions projections through 2025.
- Evaluate expected impacts of climate change on Virginia's citizens, natural resources, and economy.
- Identify climate change approaches being pursued by other states, regions, and the federal government.
- Identify what Virginia needs to do to prepare for the likely consequences of climate change.

- Identify any actions (beyond those identified in the Energy Plan) that need to be taken to achieve the 30% greenhouse gas reduction goal.

The 32-member commission includes state legislators; scientists; economists; representatives from the energy, transportation, manufacturing, development, and agriculture industries; representatives from environmental organizations; and local government representatives. The commission will issue a report with recommendations by December 15, 2008.

I think we already realize this commission will come up with ways the State of Virginia can reduce greenhouse gases and thereby reducing global climate change. What we do not know is how much of what the committee recommends will end up in the next General Assembly session.

You may find this interesting. I recall the 70's when the climate experts were warning us of a coming ice age. Now these same experts are warning us about climate change with temperatures going up. Here is a link to a 1975 Newsweek article on the coming ice age: <http://sweetness-light.com/archive/newsweeks-1975-article-about-the-coming-ice-age> I hope you find it as entertaining as I did. Remember – everyone complains about the weather but only a select few want to pass legislation to control it.
