# **The Galloping Gazette**

**The Official Newsletter Of The  
Central Virginia Mustang Club**  
**March 2016 / Issue 351**

### **NOTES FROM THE PRESIDENT**

March is here! We are all thinking about warmer weather and your club is busy planning events. CVMC events that we host or attend will now be listed in the newsletter. As we confirm dates and places, we'll update the list, post them on the Google online calendar, our Facebook page, and the newsletter. Along with events that we've enjoyed each year, we are planning and have confirmed some new events such as a spring cruise (like the leaf cruise), a winery cruise(s), a monthly Mission BBQ cruise-in, and a car show at Ft. Lee. We hope that you'll take advantage of the fun and join us when you can. A full list of planned events can also be found at the end of this newsletter.

### **CVMC By-Law Modifications**

CVMC By-Law Modifications - those who attended the February meeting approved the following changes in ARTICLE V: OFFICERS, Section 1.

The elected officers of this club shall consist of President, Vice President, Treasurer, Secretary, **National Regional** Mustang Club of America Director, and Membership Director; a nominee for an elective office shall be a paid, active Central Virginia Mustang Club and Mustang Club of America member. Officers shall not be eligible to hold more **that than** one (1) of the above offices at any one time. No two (2) members of an immediate family and or household may simultaneously hold the offices of President or Treasurer.

## **2016 MOTOR TREND INTERNATIONAL AUTO SHOW**

This year we have again been invited to provide a display at the upcoming Motor Trend International Auto Show at the Richmond Coliseum. The show runs from March 11 – 13 and we have an appointment to move in at 5:30 on March 9<sup>th</sup>.

This show has been a good time in the past and we have really managed to showcase ourselves to people who would not ordinarily get to see our cars or even know we exist. Personally, I love the way the cars look under the lights. This year we have space to showcase 10-13 cars and to date I that many signed up. We always shoot for a nice variety of cars.

If you have signed up to participate by showing your car, please remember that you will need to spend a block of time manning our CVMC table to answer questions or keep Tommy out of trouble. We have slots available from Friday through Sunday and I will have a sign-up sheet at the March 2<sup>nd</sup> meeting. Also, to anyone who does not want to show their car, please consider spending a little time at the table as well! The more people we get, the less time everyone will have to spend.

## **MCA REPORT**

To comply with our MCA charter, our updated 2016 Officers and the 2015 December membership roster has been forwarded to MCA headquarters. The only roster information sent was your name, CVMC and MCA membership numbers.

How many of you watched the Barrett-Jackson auto auction last month. They also hold seminars on collectible vehicles and MCA's President, Jeff Mays, was invited to be one of the panelists, along with representatives from National Corvette Restorers Society, Ferrari and Good Guys. The VP of Good Guys also served as a panel member. Did you know that Ford is one of the largest sponsors at Barrett-Jackson?

In CVMC's newsletter is a list of this year's MCA national shows. Since we are celebrating MCA's 40<sup>th</sup> birthday

there will not be an MCA Grand National show this year.

I have not heard back from other Mustang clubs concerning who is going to the 40<sup>th</sup> or who would like to participate in the MORE program that was explained in February's newsletter and additional questions and answers on benefits not covered on the website. One advantage is leaving your Mustang inside the Speedway guarded parking and using the shuttles service because area hotel parking will cost you \$25.00 to \$40.00 per day depending on where you stay.

As a member of MCA you receive the professionally written, official club publication, Mustang Times (MT) magazine is included with your membership. In January's issue of MT, on pages 46 to 49 is a list Mustangers who have received their coveted Grille Medallion, including a few CVMC members (Don Lane, Tony Hall, and soon to be listed in next January's MT will be Michelle Jordon and me). Former member Lonnie Tucker and a frequent CVMC show attendee Ed Cozak is also listed. There are a number of other Mustangers on the list including National Capital Region Mustang Club (NCRMC) members and several other Mustangs I have judged over the years.

Did you know in the late 60's Ford manufactured an inline Autolite 4 barrel carburetor that today is very valuable selling for around \$5,000.00. In February's issue, page 30 to 36 is a great article with pictures of this carburetor. As a member is Ford's 'X' plan pricing available on all Ford products, except the Shelby's, which could result in a savings of hundreds of dollars on your new 2016 Mustang.

For those of you receiving Mustang Monthly check out the March issue, pages 30 to 34, for a great story, with pictures, on my good friend and long time NCRMC member Mike Curry's early 1966 K-Code GT

convertible. I saw Mike at the Grand National in Columbus, Ohio where the pictures was taken.

The Mustang 6 cylinder Club is having their 1<sup>st</sup> East Coast Regional show at the Manassas Museum on May 7<sup>th</sup>. Check out this Face Book club that is devoted to just 6 cylinder Mustangs of all years. The nice thing about this club, there are no dues and the newsletter is online. The website is M6A.

Check our newsletter, club and Face book websites for upcoming parades, shows and cruise-ins in the Richmond metro area.

You always save the best for last. There is simply too much to list for this event but I do know we have conference calls every two weeks to keep up with the changes. This event will offer the following:

- A. Three days of on track of the full course configuration of 3.27 miles.
- B. Friday night social - we'll be playing video and a slide show of the days' happenings during dinner.
- C. Saturday Mustang and Ford show - Any Mustang, any Ford
- D. Saturday night banquet - Guest speaker, Frank Moriarity, author of Iron Fist Lead Foot will be peaking our interest with his experiences with the Terminator Mustang. I'm sure there will be lots of questions at that dinner. There will also be a host of door prizes given away at the banquet. I can see tees, posters, and other Mustang items being given away as part of your banquet fee.

We're are also trying to organize a burnout/donut contest but we'll have details later about that since it is in the infant stages. We've run into a couple of snags with this portion but we'll try to work it out.

Don't do it on the street, do it in a controlled environment. I have to admit that it is fun to watch but not very smart because someone could and eventually will get hurt. Don't be that guy that messes it up for everyone else.

## **2016 DRAGON RUN**

May 1-7, 2016

You have seen pictures and you have heard stories of the ponies that slayed the dragon...Are you ready to ride and part of the Slayer Crew class of 2016? This event will be held over a one week period beginning Sunday, May 1st. We will be based out of Gatlinburg TN, starting and ending there each day. There will be 5 distinct cruises that are independent of each other so you can come for one day, two days or all week depending on your schedule. We will leave Gatlinburg on Friday afternoon to drive to Mooresville, NC for this years Blue Oval Classic Show. For more information, Check out the "Nomad Events" Facebook page at <https://www.facebook.com/groups/nomadevents/?fref=ts>. We hope to see you there!

Special Thanks to Michael Santangelo of RMR and Mustang Nomads for setting up this event.

I will be leading a group out of Richmond on May 1st to meet a larger group coming from Winchester, Maryland, and beyond. We will travel 360 to 460 and onto I-81 to meet up with them. More info to follow later...

## **MARCH 2016 CAR HOBBYIST NEWS FROM THE COUNCIL**

The General Assembly is in session and the Virginia Association of Car Councils website has the listing of all auto-related bills at <http://vaacc.org/legis1.html>. I have gone through all legislation to compile the list of the bills. The most interesting bill is HB 1119 sponsored by Delegate Nick Rush. This bill is what I call the freedom of exhaust bill because if it became law you would be able to have aftermarket exhaust parts on your vehicle as long as the police do not think the noise level is excessive. Current law only permits exhaust parts that do not have a noise level above factory exhaust. I spoke with the legislative aide for Delegate Rush who informed me he didn't think the bill had much of a chance. The State Police are against the bill and Rush was contacted by SEMA, who want to bring back the old decibel meter test for exhaust. A decibel meter test bill failed years ago and there simply isn't funding for the meters. Instead legislators are looking at spending money for police body cameras.

I explained to the aide that we car hobbyists would like the current

pre-50 exhaust freedom of choice extended to the 1974 model year – before catalytic converters and other federal emissions equipment was required. He asked that I send an email with the details and they will look over after the session. Delegate Fariss and Senator Black sponsored the pre-50 exhaust legislation that became law last year. Neither has responded to my letters or emails about a pre-75 bill. I still remain hopeful that in the next couple of years we will get exhaust choice of freedom in Virginia simply because a lot of people – and people in the legislature – realize that Virginia's exhaust law is outdated.

Now for the fun part as I list the strange and unusual bills that get introduced. Keep in mind that most of the bills get killed and never make it into law (something we can be thankful for).

Bills have been introduced to allow motorcycles to have five instead of four front lights. It is currently illegal to have more than four front lights on a vehicle in Virginia. Also a bill was introduced allowing motorcycles to go over all toll roads and bridges without paying any toll. Another bill would allow people 21 and over to ride motorcycles without a helmet – those bills have been killed in the past.

There must be a dozen or more bills to allow tickets to be mailed to people who pass stopped school buses. There has been a lot of talk about installing video equipment on school buses to stop people from going around the stopped buses. I'd like to hear from the people who pass stopped, lights flashing school buses – I want to know why they go around them.

There are a few bills that would raise the speeding limit for getting a reckless driving ticket from 80 mph to 85 mph. There is a bill to allow a jury to find someone guilty of improper

driving for a reckless driving offense.

And the bills to fine people for smoking in a vehicle with a kid are back – this time for kids 8 and younger.

There are a few bills to prevent a person registered as a sex offender from buying a special license plate from DMV. The license plate in question bears the legend “KIDS FIRST”.

I didn't know kids could play with toy cars/vehicles on streets where the speed limit is 25 or less – a bill would end that and prohibit kids with toy vehicles from playing on any street.

Virginia isn't Europe – a bill has been introduced that would require all vehicles to burn headlights at all times including during the day. I've done some research on this and places where they have this law people complain about headlight glare and the fact that motorcycles are harder to notice. Hopefully this bill will die in committee.

There is a bill to repeal the use of the hated photo red traffic light program. In the past bills to repeal have failed, but we can hope.

There are bills that would require a car dealer to disclose that the vehicle for sale has been recalled.

A motor vehicle bumper bill would reduce the required bumper height from 14 to 9 inches from the ground. If this becomes law then vehicle bumper heights must be from 9 to 22 inches from the ground.

A bill has been introduced for a new special license plate with “STOP GUN VIOLENCE”. As you know there are many bills in the Assembly this session that are both gun control and pro-gun. Another license plate bill would allow the use of a logo or emblem on the Sons of Confederate Veterans special license plates.

“PROTECT POLLINATORS” – this bill changes the special license plates for Protect Pollinators from nonrevenue sharing to revenue sharing and provides for the moneys to be allocated to the Virginia Department of Transportation to aid in the Pollinator Habitat Program.

Civil asset forfeiture is coming under fire in Virginia. This program allows the police/government to seize property even if a person has not been charged with a crime. Bills have been introduced to prevent the forfeiture unless the person has been found guilty of a crime.

There are a lot more bills of interest. As a citizen of this state I think you should go to <http://lis.virginia.gov> and click on all bills and resolutions – take a look at what those who are supposed to represent you have introduced and wish to become law. I'm sure you will find several bills of interest.

## **YATES ALREADY AT WORK ON STEWART-HAAS' MOVE TO FORD**

HAMPTON, Ga. -- The addition of [Stewart-Haas Racing](#) to Ford in 2017 will mean an increased workload for Roush Yates Engines, the company

that supplies Ford power to teams in all three of NASCAR's national series.

But it means much more than the 60 or so additional engines the supplier will have to produce, according to CEO Doug Yates.

"For us, that's four more top-notch cars, opportunities to win races and championships," Yates said Saturday at [Atlanta Motor Speedway](#). "But the work starts now because we've got to get ready for next year."

SHR, which currently runs under the Chevrolet banner, fields four full-time [Sprint Cup](#) entries, with drivers [Tony Stewart](#), [Kevin Harvick](#), [Kurt Busch](#) and [Danica Patrick](#). [Clint Bowyer](#) will take over [Tony Stewart](#)'s No. 14 car in 2017.

Yates, son of famed engine builder and former team owner Robert Yates, said his company currently has approximately 250 engines in its fleet for [Sprint Cup](#) teams.

"We'll start building them up but next year, with four cars will mean about 60 more engines. ... Today we build about 750 Cup, [XFINITY](#) and Truck engines a year. At our road race shop we build about 250 a year. Obviously we will have to add some people. We feel like we have a good process, we just have to add volume."

The benefit, he said, is it will be "a good opportunity to allow us to bring on more resources for the R&D side, more testing, more engineers. Just add depth to every department. It's exciting.

"When we brought on (Team) Penske several years ago, we were not as prepared as we wanted to be ... there were a lot of long nights, a lot of stress. So we're going to try to be ahead of that."

[Team Penske](#) made the move from Dodge to Ford after the 2012 season. Dodge left NASCAR on a high note; Penske driver [Brad Keselowski](#) had just won the [Sprint Cup](#) title.

The following year, Keselowski finished 14th and teammate [Joey Logano](#) eighth in points.

"We've never been afraid to build a lot of engines," Yates said. "My dad and I have been in the engine business our entire lives. That part's really not a concern. But we're here to win races and championships, and there's a lot of responsibility and pressure that goes along with that.

"Roush Yates has been in business for 12 seasons now, this is our 13th. Between Cup, [XFINITY](#), Truck and road races, we've won over 250 races. With Penske in three years we've won 48 races and 20 Cup races. But the last Cup championship we won was in 2004. So that's really the emphasis on us is to go win championships and we feel like with teams like Penske and Stewart-Haas and Roush Fenway and Petty ([Richard Petty Motorsports](#)), we have a really good opportunity to do that."

Yates has built winning engines for decades, following in his father's footsteps. He can recall his first race-winning engine as if it had been built just last week.

"It was a huge moment," he said. "It was the fall Charlotte race ... with Davey Allison. That was the first one I built all the way through. That was just such an incredible feeling of accomplishment. It was like 'This is just incredible.' That was really special to me."

<http://www.mca40th.com/>

### **MCA 40TH TRACK ACTIVITIES**

#### **Parade Laps**

-On Sunday, Sept. 4th the track will be open for Parade Laps for all Mustangs participates-free of charge.

-We have received a number of inquiries from guests considering purchasing open track to be able to take their vehicle on the Indianapolis Motor Speedway track.

-The open track activity uses the GP Track, not the entire Indy 500 track. The Sunday Parade Laps will be the only time the Mustangs will be allowed on the entire Indy 500 track and it is free.

-Due to track regulations we can only sign up attendees on Sunday. We will have the sign up location information in the registration packet.

-Please remember Sunday is the only day to sign up for the free Parade Laps.

#### **Open Track**

-We have sold 25% of the open track spaces, once we reach 100% of the open track spaces sold, that track day will no longer be open for additional registrations.

-Jim Chism and members of the Music

City Mustangs will handle the open track duties.

-Motorsport Registration will be sent out to attendees signed up shortly, along with open track details posted on the event website.

-Remember if you sign up for three days of open track, you receive a garage space for those three days free.

#### **Auto Cross**

-We are also planning auto cross activities. Details will be announced soon.

#### **The Next week**
